Apple iOS- Vulnerability

Dear Constituents,

Apple has released iOS 12.4.1, a minor update that comes one month after the launch of iOS 12.4. The iOS 12.4.1 update is available on all eligible devices over-the-air in the Settings app. To access the update, go to Settings > General > Software Update. As with all iOS updates, iOS 12.4.1 is free to download.

How it Works

A malicious application may be able to execute arbitrary code with system privileges. This allows hackers to create a jailbreak for the iOS 12.4 update.

What to do

Update to the latest version of iOS which is 12.4.1 for the following products:

- iPhone 5s and later
- iPad Air and later also
- iPod touch 6th generation and later.
