Security Updates for Microsoft and other vendors for

March 2024

Dear Constituents,

Microsoft's has released their security updates. They have released security updates for 60 Vulnerabilities. According to the severity of these vulnerabilities, 2 were only listed by Microsoft as Critical, 45 were rated as High and 13 were rated as Medium including denial of service attacks, they allow remote code execution, the most serious of vulnerabilities.

Patches from other vendors are also available as follows:

- Android's Security Bulletin for March 2024 is detailed here: <https://source.android.com/docs/security/bulletin/pixel/2024-03-01>.
- Chrome's Security Update: <https://chromereleases.googleblog.com/>
- Mozilla's Security Update: <https://www.mozilla.org/en-US/security/advisories/>
- Apple's Security Update: <https://support.apple.com/en-us/HT201222>
- Adobe's monthly security update: <https://helpx.adobe.com/security.html>
- Cisco's Security Update: <https://tools.cisco.com/security/center/publicationListing.x>

What to do

Users and administrators are strongly recommended to install these security updates as soon as possible to protect Windows and the relevant products from security risks.
